APPENDIX – FOR ARTS AND CULTURE APPLICANTS ONLY

New partnership with the California Cultural Data Project (California CDP)

The Fresno Regional Foundation, along with other public and private funders in California, is partnering with the Cultural Data Project for the second year. Applicants are required to complete a Cultural Data Profile through the California CDP Website (<http://www.caculturaldata.org>).

The California CDP is an online system for collecting and standardizing historical financial and organizational data and will provide the cultural community with consistent, reliable, comprehensive data on arts and culture in California. It is hoped that access to this data will enhance both individual organizational capacity as well as the overall effectiveness of the nonprofit cultural community in our state. Applicants applying to more than one of the participating Grantmakers will only need to complete this form once each year.

Participation in the California Cultural Data Project (California CDP) is required for all Fresno Regional Foundation Arts and Culture applications. As part of the application process, it is also due to the Fresno Regional Foundation by **January 22, 2010**.

Instructions for the Use of the California CDP:

1. Your organization must be registered with the California CDP website by creating an organizational login ID and password.
2. Your organization, or arts program/department within a larger organization, will enter historic financial and programmatic information for completed fiscal years using board-approved audits or reviews. If your organization is not audited, you will enter information from your board-approved year-end financial statements. **Please note, your grant application budgets and narratives are NOT collected by the California Cultural Data Project and will remain part of the Fresno Regional Foundation application.**
3. If this is your first year of use, you are asked to **complete a Cultural Data Profile for each of the two most recently completed fiscal years.** (Going forward, you will only need to provide one year of data.)
4. Once you have completed and submitted your Cultural Data Profile, go to the “Funder Reports” section of the California CDP website and generate the Funder Report for Fresno Regional Foundation, and attach it with your Organization Profile materials. To view any of the reports, you must have Adobe Acrobat Reader installed on your computer. Relevant information from the applicant’s Cultural Data Profile will automatically be included in the Fresno Regional Foundation Funder Report. **Please be sure to review your Funder Report.**
5. The California CDP Help Desk will review each of your submitted profile(s) and contact you with suggested revisions. It is your responsibility to respond and to make all necessary changes to the submitted Data Profile(s). Making these suggested revisions may help you represent your organization more accurately in the Funder Reports you use as part of your application to participating grants programs and in the powerful User Reports.

The complete instructions for the use of the California CDP are available on the California CDP Website at www.caculturaldata.org. Please direct questions concerning the Cultural Data Profile to:
